

Vector is a world leader in the development of tools and embedded software for in-vehicle networks. Today's increasingly complex networks in agriculture, construction and commercial vehicles require robust and efficient tools for analysis, design and validation.

Your benefit:

- > proven software tools for project planning, analysis, simulation and testing
- > efficient implementation with tailor-made embedded software components
- > high-performance hardware interfaces and data loggers
- > custom application development and individual consultation
- > plus, an extensive list of protocol and tool training classes

This special **limited-time*** offer will help get you jump-started with the most effective network analysis tool on the market. The two special CANalyzer.J1939 turn-key bundles include the software and interface hardware necessary for typical applications in J1587 and J1939 development.

CANalyzer.J1939 Turn-key Bundles

V1.0/2010 CYN.J1939 Turn-key Bundles EN

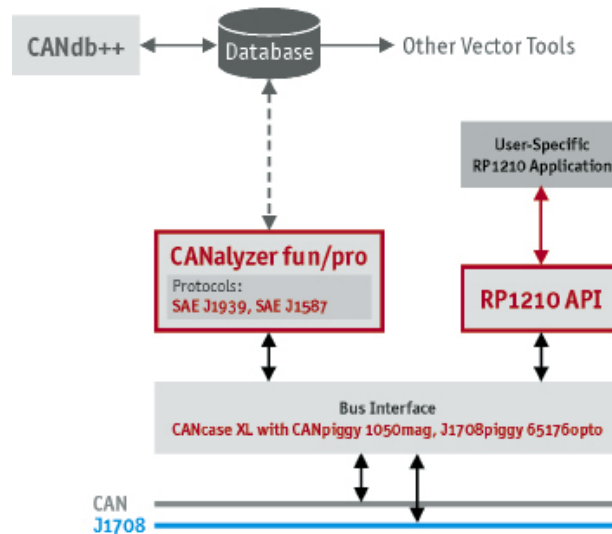

Basic Analysis Bundle

Do you need to analyze network traffic? Log network traffic? Transmit network messages? Monitor specific J1939 or J1587 parameters? Do you need accurate timing of network parameters? All of these features and more are available in Vector's CANalyzer - basic analysis bundle. The tool includes extensive demo configurations and databases containing the most common J1939 and J1587 parameters for quick start operation.

Professional Analysis Bundle

For more complex network development tasks, the professional version of CANalyzer adds capabilities to develop user applications for automating network stimulation and response analysis. Custom panels can also be created to provide users control of network messaging and parameter displays. Please visit the Vector website for more details of the tool functionality.

Basic Analysis Bundle:

- > CANalyzer fun
- > Option .J1939
- > Option .J1587
- > CANcase XL (USB Interface)
- > CANpiggy 1050mag
- > J1708piggy 65176opto
- > RP1210 API v2.1
- > 1 Yr. Maintenance agreement for CANalyzer.J1939 fun
- > 1 Yr. Maintenance agreement for CANalyzer.J1587 fun
- > 1 Yr. Maintenance agreement for CANalyzer fun

Professional Analysis Bundle:

- > CANalyzer pro
- > Option .J1939
- > Option .J1587
- > CANcase XL (USB Interface)
- > CANpiggy 1050mag
- > J1708piggy 65176opto
- > RP1210 API v2.1
- > 1 Yr. Maintenance agreement for CANalyzer.J1939 pro
- > 1 Yr. Maintenance agreement for CANalyzer.J1587 pro
- > 1 Yr. Maintenance agreement for CANalyzer pro

CYJB_SAECOMVEC2010: **\$2,979** (List Price \$4,805)

CYJP_SAECOMVEC2010: **\$5,686** (List Price \$9,322)

***Special Bundle Price; valid until 2010-12-31 for North American customers only.**
